

LOAD

USB power supply module

Nexelec

www.nexelec.eu

Reference	Conditioning
S006	Unitaire

36 mm

23 mm

FUNCTIONS

Easy installation

LOAD can be easily installed in a flush-mounted box for efficient mounting of Nexelec surface-mounted products

220V to USB conversion

This module simply supplies power to your product, thanks to its 220V to USB conversion function

Compact and discreet

Thanks to its small size, the LOAD power supply module is compact and fits discreetly into walls, allowing Nexelec products to be surface-mounted

Special renovation

There's no need for a new installation to set up your product: LOAD integrates perfectly into any existing flush-mounted box
